LOGICAL MOVE OF THE JAPS

Having Cleared Southern
Manchuria Next Objective
is Northern Port.

Notwithstanding Peace Rumors,
the Czar is Going Ahead
With His Plans.

St. Petersburg, March 28.—The impression prevalent in some military circles that the Japanese, having removed the possibility of the main army in Manchuria assuming the initiative, will now turn their attention to the next objective of the war, Vladivostok, is strengthened by the press dispatch from Gunshu Pass announcing the withdrawal of the Japanese from the immediate front of the Russian army for a distance of thirty-five miles south. It is realized of course that this may be merely a blind to cover flanking operations; but it is not improbable that the Japanese, having cleared southern Manchuria of Russian troops and secured a position whence expulsion would be a long and difficult process, may be satisfied to hold the Tie Pass line without further extension of communication.

While the voice of the emperor's advisers is for peace it honorable terms are obtainable, the government, as is the part of wisdom, is going forward with all provisions for the continuance of the war. Preparations are reported to be making for the mobilization of five corps. It had been understood that the guarus would be retained at St. Petersburg; but some of the officers of this crack organization believe their services have been requisitioned and are making preparations to that end.

There has been a recrudescence of reports of a change in the head of the war office. It was stated last night in a usually well-informed source that Lieutenant General Sakharoff will leave very shortly and be succeeded by General Ridiger, now chief of the chancellery of the war office. It is reported that General Polivanoff will be appointed chief of the general staff. Both Polivanoff and Ridiger are of the younger school of generals, but have high repute as tacticians and administrators. General Ridiger is the author of a number of text-books on tactics.

The government is advised that Chinese bandits are appearing in great numbers along the Siberian railroad and causing interference with the train service.

A NOBLEMAN IS IN STATE PRISON

Foreigner Now Serving Time
Will be Released at Michigan
City Shortly.

If the plans of Warden Reid, of the Michigan City penitentiary, are not miscarried, a convict claiming to be of noble German birth, will be released from the institution on parole in a few days to be sent to the Fatherland. His name is Niki Von Braun, and he has served a year here for larceny, having been convicted in Vermillion county under the name of Niki Von Borsitz. His parents, wife and child reside in a German province bordering on the Rhine and are waiting his release. Von Braun is forty years old.

While attending the university at Heidelberg he met the girl whom he later married. The nuptial event did not meet the approval of the young man's parents and he fled to this country.

Warden Reid is now communicating with the German consul at Chicago in the hope of securing transportation for the prisoner. He cannot speak English and an interpreter is constantly used in communication between the prisoner and officials.

It is far safer to loan your money to strangers upon good security than to lend it to near kin without a mortgage.

PLAIN FISHING LAW

Present Law Will Remain as it
Stands Until New Law
Takes Effect.

The Indiana fish law will remain as it stands until the new law goes into effect in May. The closed season for all varieties of fish in inland lakes extends from March 23rd to May 15th; providing that catching fish with hook and line in any streams is not barred; shooting of fish is prohibited, as also is dynamiting of streams for fish; and shipping of game fish out of the State is likewise prohibited, and heavy penalties for violating are provided. The law is not difficult of construction and is a very moderate one.

BIG DEAL IN COAL

Bloomington, Ind., March 28.—A deal has been closed at Chicago by which the Tower Hill and Midland coal mining properties, involving over \$330,000 and located in Greene county, pass into the ownership of Chicago and Eastern capitalists. It is thought this is the beginning of the transfer of a number of mines in the Greene county district to a syndicate recently formed in opposition to the company that closed a deal for a large number of mines in that section and Illinois a few weeks ago.

EX-SHERIFF SUES SHELBY COUNTY

Theodore Luther Demands
Salary Unpaid During His
Term of Office.

Ex-Sheriff Theodore Luther, of Shelby county, Monday filed a suit in the circuit court against the Board of Commissioners of Shelby county demanding the payment to him of \$6536.40 as unpaid salary during his term of office as sheriff. In his complaint he sets forth the fact that he performed all duties necessary from an incumbent of the office from November 14th, 1900 to January 1, 1905, and alleges that during that time he drew of the county's fund in fees and salary only \$3971.10, and that the county owes him as complete salary during his term of office the following sums: For 1900, \$287.50; for 1901, \$2300; for 1902, \$2300; for 1903, \$2300; for 1904, \$2300. Total, \$9487.50. The difference between this total and the sum of \$3971.10 which he alleges he has drawn, constitutes the amount for which he has sued.

HEARING IN THE BEEF TRUST CASE

It Is Certain That Evidence of
an Important Character is
Being Secured.

Chicago, March 28.—J. E. Shields of New York city, formerly an employee of Armour & Co., yesterday occupied most of the time of the federal grand jury that is investigating the workings of the so-called "beef trust." Great developments are anticipated as a result of the testimony that Shields is expected to give today. It transpires that much of the testimony previously taken by the grand jury serves only as a schooling in relation to the livestock and meat business in general.

Beginning today it is rumored through the close veil of secrecy, facts that will prove of value in reaching a conclusion will be given to the grand jury. Mr. Shields has been guarded closely by secret service officers since his arrival from New York. Last night he was closely watched at a hotel. It is said that Shields underwent a severe cross-examination by District Attorney C. B. Morrison, who has charge of the investigation.

TO HOUSE THE CONVENTIONS

Phenomenal Increase in Vote
at Last Election Gives
Rise to Thought.

Politicians Should be Figuring
on Place For the State
Conventions.

Politicians who are acquainted with the facts regarding the phenomenal increase in the vote at the last November election ought just now be figuring out how Indianapolis is going to house its State conventions next year. Tomlinson hall was inadequate for the two Democratic State conventions last May and August and was barely large enough for the Republican gatherings in April. Many Republican delegations were relegated to the balconies for lack of room on the lower floor, and the great throngs that looked on were forced to crowd on the stage or into the galleries. Conditions were much worse at the Democratic conventions.

In the Democratic conventions there were 1547 delegates, based on one delegate to every 175 votes cast by the party for Secretary of State in November 1902. The total Democratic vote was 263,555. There were 1486 delegates in the Republican State convention, one for every 200 votes cast for Secretary of State in 1902. The total was 258,362.

Using the same units as a basis of representation in the State convention of 1906 the Republican gathering will show an increase of 303 delegates, making the total of 1798, and the Democratic convention an increase of 32 and a total of 1578. The unusual increase in the Republican figures is due to the landslide last November, which gave the ticket 359,362 votes in the State. The Democratic vote was 274,998.

THEY MAY NOW BE PROSECUTED

New Law Will Put a Check Upon
Fraudulent Fruit Tree
Agents.

There has been no more common swindle perpetrated on farmers and others than that worked by fruit tree agents, who have worked off scrub trees that cost them next to nothing at good prices by labeling them as choice fruit. A law just passed by the Legislature will go far to check this fraud. It reads as follows:

Section 1.—Be it enacted by the General Assembly of the State of Indiana, that it shall be unlawful for any person, persons, firm or corporation, acting either as principal or agent, to sell to any person, persons, firm or corporation any fruit tree or fruit trees representing the same to be of a certain kind, variety and description, and thereafter to deliver to such person in filling such order and in completing such sale a fruit tree or fruit trees of a different kind, variety or description of such fruit tree or fruit trees so ordered and sold.

Sec. 2.—Any person violating any provision of this act shall be deemed guilty of misdemeanor and upon conviction shall be fined in any sum not less than fifty (\$50) dollars nor more than five hundred (\$500) dollars.

Sec. 3.—Prosecutions under this act may be commenced at any time within five years from the time of delivery of such fruit tree or fruit trees mentioned in Section 1.

To Guarantee Big Loan.
Terre Haute, Ind., March 28.—The Vandellia railroad has filed a mortgage for \$25,000,000. The mortgage is drawn in favor of the Farmers' Loan and Trust company of New York to guarantee a loan recently floated by the stockholders.

WILL HAVE A SEAL

Indiana Squires Will Henceforth
Have a Stamp "Justice of
the Peace."

Be it enacted by the General Assembly of the State of Indiana, that on and after the first day of July, 1905, all Justices of the Peace of the State of Indiana shall procure a seal that will stamp upon the paper the distinct impression of words and letters; said seal shall contain the words "Justice of the Peace", to which may be added such another device or devices as such justices may desire. Deeds, mortgages, power of attorney, state warrants and all other instruments of writing pertaining to his official duty, duly attested by the seal and signature of a justice of the peace, shall be presumptive evidence of the official character of the said justice of the peace in all courts in the State of Indiana without further authentication.

OBEYED HIS WILL

Boonville, Ind., March 28.—A few days ago John Hofge, realizing that he was on his death-bed and anxious concerning the future of his wife, requested that she should wed his friend, Harry Smith, a traveling salesman, and the principals consented. Their marriage occurred but a few days after the burial of the first husband.

THE PENNSYLVANIA RAILROAD'S PLAN

Changes are Proposed in the
System of Pensioning
Employees.

The most important change in the pension department of the Pennsylvania Railroad company since the inception of that department a few years ago is contemplated as the result of a plan originated on the Pittsburgh division. A scheme has been evolved by the Brotherhood of Locomotive Engineers and has received the approval of General Manager W. W. Atterbury, by which each employee will give one day's wages each year, and funds will thus be provided by which the optional limit of retirement on a pension will be reduced from 65 to 60 years.

The present rule is that when an employee has served ten years and has reached the age of 67, he may retire at the discretion of the superintendent. At 70 years the retirement is compulsory. The pension received amounts to 20 per cent of an employee's salary, based on the average of the last ten years of work.

EFFORTS TO BRING ABOUT A MEETING

A Plea to Have Roosevelt and
Diaz Meet on International
Bridge.

Laredo, Tex., March 28.—Efforts are being made by local parties well-known in Washington and the City of Mexico to bring about a meeting between President Roosevelt and President Diaz when the former comes to the Southwest early in April. It would be customary for President Diaz to secure leave of absence from congress to depart from Mexico, but no such formality would be necessary if a meeting between the two executives could be brought about.

In the event of a meeting being arranged the two presidents would grasp hands on the international bridge over the Rio Grande river, each remaining on his respective side of the boundary line.

SUBMITTED TO THE GOVERNOR

Eighth Biennial Report of
Eastern Indiana Hospital
for Insane.

A Complete Detail Account of
the Workings of the Institu-
tions for Past Year.

The eighth biennial report of the Eastern Indiana Hospital for the Insane for the period ending October 31st, 1904, has just been issued by the State printers, and it is one of the best reports ever made by Dr. S. E. Smith, superintendent. On the front page is a splendid picture of the administration building. There are also fine cuts of the cottage twelve, men's hospital and the women's hospital. Three men and two women were admitted from Rush county during the year. Allen, Grant and Madison furnished the largest number of patients. Union county only sent two persons during the period mentioned. The highest number for any county was twenty-two and the lowest two. Following is the nativity of those admitted: Germany 3, Ireland 3, Switzerland 2, Indiana 106, Iowa 1, Kansas 1, Kentucky 4, Maryland 3, Michigan 1, Minnesota 1, Missouri 1, New York 1, Ohio 25, Pennsylvania 5, Tennessee 2, Virginia 2, West Virginia 1, unknown 2. Total admitted during the year, 168.

Of the occupations of those admitted, farmers and farmers' wives take the lead. Only one printer went insane. The greater number of persons went insane between the ages of forty and fifty, the men exceeding the women by seven. Five persons were admitted between the ages of seventy and eighty. Six were declared insane between twenty and thirty.

Total number of patients admitted since August 31, 1890, to October 31, 1904, 2185. Number discharged 889, while the dead number 553.

THE LIQUOR MEN GETTING BUSY

They are Strongly Organizing
all Over the State to Fight
New Laws.

The retail liquor dealers of Indiana are lining up for a fight when the new laws concerning their business go into effect about May 1st. The dealers all over the State are to be more compactly organized and each congressional district will be visited by organizers within the next few weeks. The dealers of the Sixth district will have a meeting to perfect an organization and prepare for all kinds of contests that may come under the new laws passed by the last legislature. Phillip E. Heise, of Indianapolis, who is looking after the State in this matter, will be present, but just what the plans of the meeting are cannot be stated at this time.

A TRAGEDY

Grand Rapids, Wis., March 28.—In the town of Saratoga, Abahrad Kapyski, aged thirty-three, shot and killed Rebecca Finkelstein, aged thirty, wife of S. Finkelstein, and then pursued by an angry mob, hastened to this city and gave himself up to the officers. The killing was the result of a quarrel over money matters.

Minnesota Town Destroyed.
St. Paul, March 28.—A report has reached this city that the little town of Louisa, in the extreme western portion of the state, has been practically wiped out by a tornado and that seven persons had been seriously injured. It was also stated that from two to seven were killed.

HODGKINS' DISEASE

A New and Rare Ailment is Dis-
covered by an Indianapolis
Physician.

One of the rarest cases known to the practice of medicine has been discovered at Indianapolis. The records of the city health department show that a man died in the Capital city from Hodgkins' disease, a disease of the glands of the neck, which causes them to swell abnormally and it is said, that the disease always results fatally. The disease was first discovered and named by Dr. Hodgkins, an English physician, who lived in the sixteenth century, and except in a few localities the disease has been noted but in a very few instances since that time. There is a great divergence among physicians as to the cause and nature of the ailment.

WRITING A BOOK

Cleveland, O., March 28.—Mrs. Cassie L. Chadwick announces that her autobiography is in preparation and will soon be given to the public. Mrs. Chadwick says that she has received a handsome offer from a well-known publisher and that the work will be printed in the original style, without alteration.

EX-TRUSTEES ARE INDICTED

S. W. Compton and Milton Addi-
son, of Henry County, Charg-
ed With Embezzlement.

The Henry county grand jury, just before its adjournment at New Castle Saturday, sprung a sensation by returning indictments against two ex-township trustees, charging them with embezzlement. The indictments are against S. W. Compton, ex-trustee of Henry township, and Milton Addison, the retiring trustee of Harrison township.

The indictments against Compton are for the embezzlement and appropriation to his own use of the sum of \$1000. Embezzlement, through failure on his part to turn over \$1000 to his successor on January 1st, and the failure on his part to report delinquent dog taxes to the prosecuting attorney. In the case of Addison of Cadiz, the same charges are alleged, with reference to the money, but his dog tax reports were found to be correct.

DISORDER AGAIN CAUSES ANXIETY

The Internal Situation in Rus-
sia. It is Said, is Getting
Serious.

St. Petersburg, March 28.—The internal situation is causing great anxiety, though it is said that the "intellectuals" and the educated classes generally disapprove of the revolutionary spirit which is permeating the peasantry and laborers in Poland. The Crimea is boiling with discontent, and the strong hand of the military force has been invoked to crush the incipient revolution at Yalta, near the emperor's summer residence. The spirit of disorder has spread to Sebastopol.

Moderate Liberals in St. Petersburg are becoming alarmed at the situation, reports having been received showing that an actual revolutionary propaganda is being pushed with vigor in many sections of the empire. The authorities of the government of Saratoff are closing the schools on account of the peasant disturbances.

There are 14,000 hotels in the United States, representing an invested capital of over \$6,000,000,000. These establishments employ 3,500,000 persons.

THE DISASTER IN THE MINE

At Princeton Was Due to a
Violation of the State
Mining Laws.

One of the Men Responsible Was
Killed and Complaint Will be
Led Against Other.

Princeton, Ind., March 28.—The report of James Epperson, state mine inspector, to Coroner Hollingsworth on the Princeton mine explosion, in which five men lost their lives and as many others were injured, says that gross violation of the law by two persons was responsible for the explosion. The responsible persons, according to Mr. Epperson, were Harry Targett, who was killed by the shot which he fired, and Roscoe Hedrick, who prepared the shot for firing. Hedrick was not killed, and according to Mr. Epperson, he will be implicated in the report of the grand jury.

According to Mr. Epperson, the shot that Hedrick prepared was in direct violation of the law, in that it was placed in a solid bank of coal that had no "loose end." This "loose end" is a technical mining term, indicating that at one end of the bank or the other there must be space for coal displaced by the shot. In case there is no "loose end" any shot that is fired in the solid bank, not being able to force the coal to either side, shoots backward out of the hole drilled for the placing of the shot, ignites the gases or the coal dust in the mine, and this fire, consuming the oxygen of the air, creates what is known as firedamp, which is poisonous. The only penalty that the law prescribes for the violation of these provisions as to preparing and making shots without "loose ends" is a fine ranging from \$5 to \$100, or as an alternative, imprisonment in the county jail for a period between thirty days and six months.

I. & C. ENGINEER IS FATALLY HURT

Samuel Wagoner, Night Man,
Meets With a Serious Acci-
dent at Shelbyville.

Samuel Wagoner, the night engineer at the I. & C. powerhouse in Shelbyville, met with a very serious accident Saturday night while engaged in his regular duties. He jumped from one of the doors at the building and in doing so fell against the journal of a wheel of one of the electric cars standing near. The man was struck a terrible blow in the pit of the stomach and it is feared that he is so badly injured internally that he will die. Since the accident he has continued to grow worse, and the physician, who is caring for him holds out but little hope for a recovery.

RUSHVILLE, IND. MAR. 28, 1905.

The Wisconsin legislature has passed
a bill making the rate of railroad
passage two cents a mile.

The State of Illinois has hit upon
one way of solving the divorce ques-
tion. It proposes to prohibit the pay-
ment of alimony.

A Logansport lunatic wants to pre-
sent Roosevelt with a flying machine.
This is hardly necessary. The Presi-
dent has shown a faculty of getting
there without going up in the air.

As soon as the people of Alabama
realize that they can get capital to
manufacture products out of the iron
ore that they are now shipping away
for manufacture, they may come to
realize also what it is to live under
a policy that stands for development
of the country.

Several of the employees of the or-
ganization or combination known as
the beef trust who have been summon-
ed to appear before the United States
grand jury are said to be on their way
to Europe. Of course no other person
could go on the witness stand and
swear that these men are leaving the
country to avoid the prying tongue of
a United States attorney, but it is
easy, nevertheless, to divine what will
be the opinion of the average Ameri-
can who reads this particular item
of news.

James P. Goodrich, of Winchester,
is an avowed candidate for a third
term as chairman of the Republican
State Committee, notwithstanding the
advice of warm friends not to run for
the third time. It is almost certain
that Goodrich will have strong oppo-
sition. The new committee will not
be elected until late in the year, and
its complexion may be such as to pre-
clude the possibility of his candidacy.

A PRETTY RIVALRY

Has Developed Over the Disposition
of Certain Plums.

Indianapolis, Ind., March 28.—Sen-
ator Beveridge is disposing of the post-
office appointments for the Fourth dis-
trict this week and has a number of
knotty problems to solve. There are
at least two candidates for most of
the places and the senator was deluged
today with letters and telegrams from
them and their friends. A num-
ber of delegations called to present
their claims. A spirited contest has
developed for the Madison postoffice
which is now held by M. C. Garber,
who is serving his second consecutive
term. He had the office during Harrison's
administration and before him
his father was postmaster so long that
there is a tradition at Madison that
the Garbers have held the office for-
ever. The present incumbent is an
active Beveridge man and it is be-
lieved he will be reappointed. His
opponent is James White, a civil war
veteran who has a liberal endorsement.
William Stevens is a candidate for a
third term at Columbus but County
Chairman Coats is favorably men-
tioned. County Chairman Records is
a candidate for the office at Franklin
now held by Harry Martin. At Edin-
burg, Versailles, Batesville, North Ver-
non, Seymour and other points there
are several candidates.

There will probably be something
doing within the next three or four
weeks regarding the make-up of the
two city committees for the coming
municipal campaign. There are al-
ready a number of prospective candi-
dates for the chairmanship of the
Republican city committee and on the
make-up of the organization the ticket
will largely depend. Ex-Mayor Book-
walter has not announced his candi-
dacy but it is pretty generally under-
stood that he is busy among the party
workers attempting to line them up.
While there are hundreds of Republi-
cans unalterably opposed to him it is
generally admitted that he will be a
power in the convention or primaries.
Newton Harding is enjoying a boom
for the Republican nomination and
is regarded as a receptive candidate.
Half a dozen others are mentioned but
it will depend largely on who is elected
chairman as to who is nominated
for mayor. Police Judge Whallon, the

only one of the three leading Republi-
can candidates elected two years ago,
is a candidate for re-election and will
have no opposition.

Another chapter has been unexpect-
edly added to the Baker bribery ex-
posures by the publication of a letter to
a local paper purporting to come from
O. A. Baker, the lobbyist. It was
dated March 25 and mailed at Louis-
ville, to which point it was rumored
some time ago Baker had fled. It was
said that he went to Kentucky, feeling
that Governor Beckham would refuse
to give him up and thereby get even
with Indiana for not turning over Tay-
lor and Finley to him. In the letter
several pointed questions are asked of
Representative Ananias Baker, one of
them rather reflecting on his attitude
on the private banking bill, but the
records show that Representative Baker
consistently worked for this bill
right from the start. He does not be-
lieve the published letter is from
Baker, but that it is a trick of his
friends to find out some information
now in possession of the state.

The candidacy of Otis E. Gulley of
Danville, for the Republican nomina-
tion for congress in the Fifth district
was formally announced today. This
is not surprising as it has been under-
stood for some time that Gulley would
make the race. He was an unsuccess-
ful candidate two years ago but his
showing greatly encouraged his friends
who are going to make a harder fight
than ever. Congressman Holliday, it
is supposed, will be a candidate for
renomination as he has shown no
signs of wanting to retire. He has
grown much stronger with his consti-
tuents and will be harder to dislodge
than ever before. It is supposed now
that Representative Gulr of Clay county
will also be a candidate.

Evils of Flash Literature.

Corunna, Ind., March 28.—Earl Reed,
the twelve-year-old son of the Rev. Mr.
Reed, pastor of the M. E. church, and a
temperance speaker of note, has been
found guilty of arson, larceny and bur-
glary all within thirty-six hours. He
has confessed these particular crimes
and many other misdeeds. The boy is
an inveterate reader of detective sto-
ries. Stories of crime appealed to him
particularly, and his desk at school al-
ways contained this class of literature.
Other boys kept them for him.

Old Soldier's Sudden Death.

St. Petersburg, March 28.—General
Dokstouff, who was to start today
to join General Kaulbars' staff in Man-
churia, died yesterday as the result of
an apoplectic stroke from running up-
stairs in the war office to thank the
minister of war for his appointment.
Dokstouff, who was seventy years
of age and the hero of several cam-
paigns, had begged to be sent to Man-
churia because he wished to die a
soldier's death.

Cossacks on Guard.

Gunshu Pass, March 28.—The Japa-
nese apparently have withdrawn from
the region to the south of the Russian
front. Cossack patrols which have
been making extensive reconnais-
sances southward, found no Japanese
within thirty-five miles. Linévitch
is dispatching scouting parties east
and west to guard against a possible
turning movement.

Castro Hunting More Trouble.

Trinidad, March 28.—President Cas-
tro has again refused to resume diplo-
matic relations with Colombia, and in
so doing has created a situation which
may lead to war between Colombia and
Venezuela.

Old Flags Returned.

Jackson, Miss., March 28.—The gov-
ernor has received eighteen regimental
and company flags captured during the
civil war by the federal forces, which
were ordered returned by congress.

The Ohio River Rising.

Evansville, Ind., March 28.—The
lower Ohio river continues to rise at
the rate of over one tenth of a foot an
hour. Weather Forecaster Smythe at
Cairo, Ill., says the danger line will
be reached here tonight or Wednesday
morning. Thousands of acres of wheat
are already under water.

TERSE TELEGRAMS

Letters from Van and other parts
of Armenia state that the situation
there is steadily growing worse.

The problem of giving Berlin an
adequate system of underground rail-
ways, is receiving careful considera-
tion.

Milton Knight, vice president and
freight traffic manager of the Wabash
railroad, is dead at his home at St.
Louis.

The business portion of the town of
Faundale, Ala., was practically wiped
out by fire. The approximate loss is
given at \$55,000.

Curacao has ceased to be the head-
quarters for Venezuelan revolutionists,
and they seem to have centered their
activity in Trinidad.

The trial of Nan Patterson for the
murder of Caesar Young will be begun
in the New York court of general ses-
sions early in April.

A meeting of the large packers of
canned goods will be held in Buffalo,
N. Y., April 17 to consider the forma-
tion of a national association.

It is understood that the principal
French banking house which opposed
the Russian loan has now yielded and
that the loan will be concluded.

Judge Taylor in the United States
district court at Cleveland overruled
a motion for a new trial in the case of
Cassie L. Chadwick and sentenced her
to ten years' imprisonment.

TOTAL SENTENCE

In Mrs. Chadwick's Case
Amounts to Ten
Years.

MOTION FOR NEW TRIAL

Was Refused and Judge Tayler Sen-
tenced Female Financier to the
Columbus Penitentiary.

The Woman Had Resigned Herself
to the Sentence and Was
Unmoved.

Cleveland, O., March 28.—Unless the
higher court interferes Mrs. Cassie L.
Chadwick will spend the greater part
of the next ten years in the Ohio State
penitentiary.

A sentence of ten years was imposed
on her by Judge Robert W. Taylor in
the United States district court at
five o'clock last evening. The sen-
tence came at the close of a busy day
for the court in hearing arguments
on a motion for a new trial, which
lasted all day. The motion was over-
ruled.

Mrs. Chadwick was convicted on
seven counts and sentenced upon six
counts. For four of these counts a sen-
tence of two years each was imposed.
Upon two counts a sentence of one
year each was imposed, making a total
sentence of ten years.

As soon as the sentence was en-
ounced Attorney J. P. Dawley, coun-
sel for Mrs. Chadwick, took exception to
the sentences upon each count, ex-
cept the first count. The defense
intends to make the claim that the
court cannot impose a separate sen-
tence for each count; that the law ap-
plies to the general charge instead of
each incident of a general charge.
The various counts of the indictment
are considered by the defense to refer
only to details of the general offense.
This point will also be contested in
the higher court as will the other
points of the Chadwick trial which re-
sulted in the conviction. The first
step taken by the defense will be to
ask for a stay of sentence until the
appeal is tried out. There is an under-
standing with United States Marshal
Chandler, United States Attorney Sul-
livan and the court to the effect that
there will be no attempt to execute
the sentence until the defense has an
opportunity to carry the case to the
higher court and there obtain a sus-
pension of the sentence. Mrs. Chad-
wick will be defended to the last court.

No action will be taken by United
States Attorney Sullivan regarding the
other six indictments against Mrs.
Chadwick in the federal court until the
present case is finally disposed of. If
the present case and sentence is sus-
tained by the last court the other cases
will be dropped, otherwise they will
be used against the woman.

Mrs. Chadwick was not particularly
affected by the action of the court,
and seemingly she had resigned her-
self to any action that might be
taken. When she was told that the
motion for a new trial had been re-
fused she merely nodded her head
as if she already knew. When order-
ed to stand up and receive the sen-
tence the court asked her if she had
anything to say why sentence should
not be pronounced. Mrs. Chadwick
said there was nothing she cared to
say. Her attorneys made no appeal to
the court and the sentence was im-
mediately imposed. Judge Tayler
made no remarks, except to explain
the terms of the sentence. He stated
that the sentence of one count should
begin at the expiration of the one
preceding it.

After the sentence was imposed
court adjourned and Mrs. Chadwick
was taken back to the county jail.
By good behavior Mrs. Chadwick can
reduce her time of imprisonment to
eight years and four months.

Death of Dr. Putnam.

Cincinnati, March 28.—Rev. Doug-
lass P. Putnam, D.D., aged sixty, who
resigned the pastorate of the Presby-
terian church at Princeton, Ind., to
accept the professorship of analytics and
pastoral theology in Lane seminary
here, is dead after a week's illness.
He was formerly pastor of a church
at Logansport.

Quiet in San Domingo.

San Domingo, March 28.—A note
from Minister Dawson to the Domin-
ion government was published here
yesterday afternoon. The paper,
which indicates that the pending Daw-
son-Sanchez convention, subject to fa-
vorable report by the committee on
foreign affairs, has reasonable pros-
pects of being ratified by the United
States in October, has created a good
impression and re-established confi-
dence. It may cause the situation to
change completely. The proposition of
foreign creditors, pending decision by
the American government and the San
Domingo Improvement company, it is
hoped will be accepted and prevent
difficulties with European govern-
ments. Quiet continues throughout
the republic.

Three Drowned.

San Diego, Cal., March 28.—Lucy
and Helen Baker, young women of this
city, and their cousin, Harry Hayes, of
Iowa, were drowned by the upsetting
of a canoe.

TWO YEARS FROM NOW

The Filipinos Will Hold Their First
General Election.

Washington, March 28.—Secretary
Taft has notified President Roosevelt
that the census of the Philippine Is-
lands has been completed and publish-
ed, and under the law of July 1, 1902,
two years from this date the president
shall direct the Philippine commission
to call a general election for the choice
of delegates to a popular assembly.
All legislative power in the islands
will thereafter be vested in a legisla-
ture consisting of two houses, the
Philippine commission and the Philip-
pine assembly. The conditions upon
which the election is to be called is
that complete peace shall have con-
tinued in the territory of the islands
not occupied by Moros or other non-
Christian tribes. The popular elec-
tion is not to extend to the Moro
tribes. Two resident commissioners
to the United States will be elected
when a legislature is chosen.

Mother's Shocking Deed.

Paducah, Ky., March 28.—Mrs. Mary
Brockwell, whose three children, aged
three, four and five years, died from
poisoning under suspicious circum-
stances last Saturday, yesterday broke
down and confessed that she killed
them by giving them morphine and
coal oil. The woman said that her
husband was in an asylum and that
she could not support the children.
She also stated that George Albertson
promised to marry her if she would get
rid of the children. Albertson was ar-
rested as accessory.

Received Verdict Calmly.

New York, March 28.—Gesner Rus-
sell, also known as Gessler Rousseau,
was convicted before Recorder Goff of
having sent with malicious intent, an
infernal machine to the Cunard line
steamer Umbria in this city on May 5,
1903. The prisoner received the ver-
dict calmly and without comment and
was remanded to the Tombs for sen-
tence on Friday. The maximum pen-
alty for the offense is five years' im-
prisonment.

That Much-Talked-of Gift.

Boston, March 28.—In an interview
Dr. James I. Barton, secretary of the
American board of commissioners for
missions, declared that the proposed
gift of \$100,000 by John D. Rockefeller
to the board, which has caused wide
discussion, was unsolicited and spon-
taneous, originating in an impulse of
Mr. Rockefeller to further the work of
the board.

Receiver Appointed.

Philadelphia, March 28.—Five con-
cerns allied with the Booklovers and
Tabard Inn libraries, of which Sey-
mour Eaton is president, have been
placed in the hands of a receiver here
by the United States circuit court.
The liabilities, according to President
Eaton's statement, are less than \$150,
000, and the assets exceed \$1,000,000.

GLASS PLANTS MOVING

Failure of Natural Gas a Blow to In-
diana Industries.

Fairmount, Ind., March 28.—It is re-
ported here from reliable sources that
the American Window Glass company
will dismantle all its Indiana plants at
once, and will move the machinery to
Pennsylvania. Edward Welsch, man-
ager of the western district, says the
removal is brought about owing to the
high price of Indiana coal.

The factory at Gas City was dismant-
led last week, and work will com-
mence this week on the Elwood plant,
which will be reassembled at Belle
Vernon, Pa., where the company has
large natural gas leases.

The Alexandria, Fairmount and
Hartford City plants will go as soon
as workmen can be procured to do the
work. Since the discovery of gas in
this section eighteen years ago, the
glass industry has brought millions of
dollars into the state, and many of the
small towns have depended largely
upon the large pay-rolls each week for
support, and this withdrawal will come
as a serious blow to them.

Schwab Met With Writ.

London, March 28.—Charles M.
Schwab, on his arrival at Plymouth,
was served with a high court writ at
the instance of David Rothschild of
London, claiming demand for breach
of contract. The writ was served on
board the steamer Kronprinz Wilhelm,
and the interesting question arises
whether the liner could be regarded as
German soil, in which case the
service would be illegal. It is stated
that the matter will have to be decided
by the courts. Mr. Schwab did not
land at Plymouth, but proceeded to
Cherbourg.

Demand Proof or an Apology.

Cleveland, O., March 28.—The city
council last night adopted a resolution
calling upon Mayor Johnson to take
his recent charges of bribery to prove
them or the grand jury and prove
them, or in the event of his not being
able to do so, make an apology to the
members of the body he had accused.
The mayor said he would think it over.

Damaging Prairie Fires.

Sharon Springs, Kan., March 28.—
A prairie fire burned many farm-
houses and buildings in this (Wallace)
county, and is still raging. A strong
northwest wind is driving the flames
and the people are making little pro-
gress in their efforts to stop it.

Forty Boxcars Destroyed.

Evansville, Ind., March 28.—Over
forty boxcars were destroyed by fire
in the Evansville & Terre Haute rail-
road yards here last night. Loss,
\$50,000.

QUICK JOB OF BRIDGE BUILDING

At Connersville Sunday as the 10:17 west-bound passenger train on the C. H. & D. crossed the Central avenue bridge, the bolts began to drop from the old structure and a large gang of men with powerful derricks began to remove the old bridge. When this was accomplished, the new bridge which had been erected on the north of the old bridge, on false works mounted on wheels, rested on railroad tracks, was set in motion by cables attached to a powerful engine and in an incredible short time the bridge was over in the position which it was to occupy. Powerful jacks were then applied to lift the bridge off from the false work and allow it to settle down on the piers which had been set for it and by 3:30 in the afternoon the first train ran across the bridge. There was thus an interruption of but four hours from the time the last train ran over the old bridge until the first train ran over the new one. Not a single accident or mishap occurred during the work.

SOUTHERNER'S GOOD FORTUNE

Sam Hoover Finds Something Better Than Gold Mines.

There is no happier man in this whole wide world today than Sam A. Hoover, of Greensboro, N. C., who is receiving the congratulations of his friends upon his fortune find of something better than gold mines or oil wells. Mr. Hoover in a letter to a friend in Rushville writes:

"Three months ago I was greatly distressed by nasal catarrh and entire deafness in the right ear. The labor of hawking and scraping to get my throat and nasal passages free from the foul secretions deposited there, might be about equal to that of six mule team with a roadspear to get the earth from from the road-side to the center.

I purchased an outfit of Hyomei and Hyomei balm, and as a result of its use my head, throat and nasal passages are all free from secretions of any sort, only as Nature designed, and my hearing in both ears is nearly as acute as it ever was."

There is no disagreeable stomach dosing in using Hyomei; just breathe it and its pure fragrance will kill the catarrhal germs in the head, throat and lungs. Hyomei balm used in connection with Hyomei, will cure the worst case of catarrhal deafness.

The complete outfit costs but \$1., and extra bottles are only 50 cents. Ask F. B. Johnson and Co. to show you the strong guarantee under which they sell Hyomei. It costs nothing unless it cures.

BY THE WAYSIDE

There is a young medical student living in Westport who has decided not to speak to a young girl he knows. He was calling on the young woman recently and during the evening he volunteered to sing. When he had concluded his song he turned to the girl: "I'm thinking of taking voice culture," he said. "Do you know of a good teacher whose charge is reasonable?" "I know the very one for you," she replied. "His name is Taylor. Give me a card and I'll write down his telephone number for you." The young man gave her the card. Next day he called Taylor up on the telephone. "Is this Mr. Taylor the vocal teacher?" he asked. "The what?" came over the wire. "The vocal teacher?" "Naw," was the reply. "I don't teach nothin'." I file saws.

A Hint to Real Estate Dealers.

A short time ago a party in Tennessee sent for a copy of the Republican, and this morning we received the following letter:

"I thank you very much for your kindness. You have a first-class up-to-date newspaper. Success to you. My reason for asking for the paper was, I should like to purchase or trade Ohio property for a small farm, say 40, 60 or 100 acres improved near Rushville, but I failed to find real estate for sale advertised in your paper."

Moral—If you have real estate for sale or trade, advertise in the Republican.

Farewell to Winter.

Good-by, Mr. Winter; good-by.
We hope you have gone to stay,
With your shivers and chills
And your grip and your ills
That bothered us every day,
And with joy in the heart
We see you depart.
And you needn't come back this way.

Good-by, Mr. Winter; good-by.
We are happy to see you go,
With your ice and your frost
And the coal and its cost
And also the beautiful snow,
And we dance and we sing
And the advent of spring,
For the grass is beginning to grow.

Good-by, Mr. Winter; good-by.
The robins are tuning to sing;
Boys are buying ball bats
And women are pricing new hats,
And the hobsos are on the wing;
The candidates now
Are all raising a row,
And everything welcomes the spring.
